

## FUNDING

This map was funded by a Kresge Foundation FreshLo Grant. FreshLo is an initiative from The Kresge Foundation's Arts & Culture and Health programs that envisions healthy, vibrant communities strengthened by the deliberate integration of creative placemaking and food-oriented development. FreshLo embodies The Kresge Foundation's philosophy that catalytic change to improve opportunity for low-income persons in America's cities requires a multi-layered approach — not simply one program or one sector working alone. For more information, visit: [kresge.org](http://kresge.org)

## THANK YOU

This map was made possible by all of the residents who participated in our workshops, conversations, and events. Thank you to our workshop hosts: Covington Coffee, Gutierrez Deli, Linden Grove Cemetery and Arboretum, and Pique. Thank you to our local artists who helped inspire the look and feel of this map: Cal Cullen, Annie Brown and family, Lindsey Whittle, Chase Melendez, and Marjorie Graham. Thank you to Alexa Abner for her help with the Linden Grove Mapping Event.

# Covington's Westside Community ASSET AND FOOD MAP

## COVINGTON'S WESTSIDE COMMUNITY ASSET AND FOOD MAP

This map was inspired and created by conversations with our residents. We hosted a series of Food Mapping Workshops and community dialogue events to assess our needs and assets, and dream of what Covington may become. In addition to this community asset map we have created an "Envision Map" in The Center and invite you to stop by and share your ideas. This project was part of a larger FreshLo Grant aimed at helping us transform our neighborhood.

## THE CENTER FOR GREAT NEIGHBORHOODS

The Center is a catalyst for positive growth in Covington. Working directly with residents we spark innovation by bringing people together. We encourage and support community member's efforts to shape the future of our neighborhoods. We are committed to helping people discover and develop their skills, find and use resources, and work with partners to improve Covington. Our programs are designed to help residents develop solutions to both individual and community issues using food as a platform for neighborhood revitalization.

## WHAT IS FOOD MAPPING?

The Center believes that residents hold deep knowledge of their communities and are often the best experts out there. The Food Mapping process taps into this idea by allowing residents the opportunity and space to communicate their knowledge through art and conversation. Food Mapping shows how residents experience and interact with food in their own communities. This food map grew out of our residents' input and is a visual that helps us see the food and related community assets in Covington's Westside
