

A NORTHSIDE FRUIT PARK

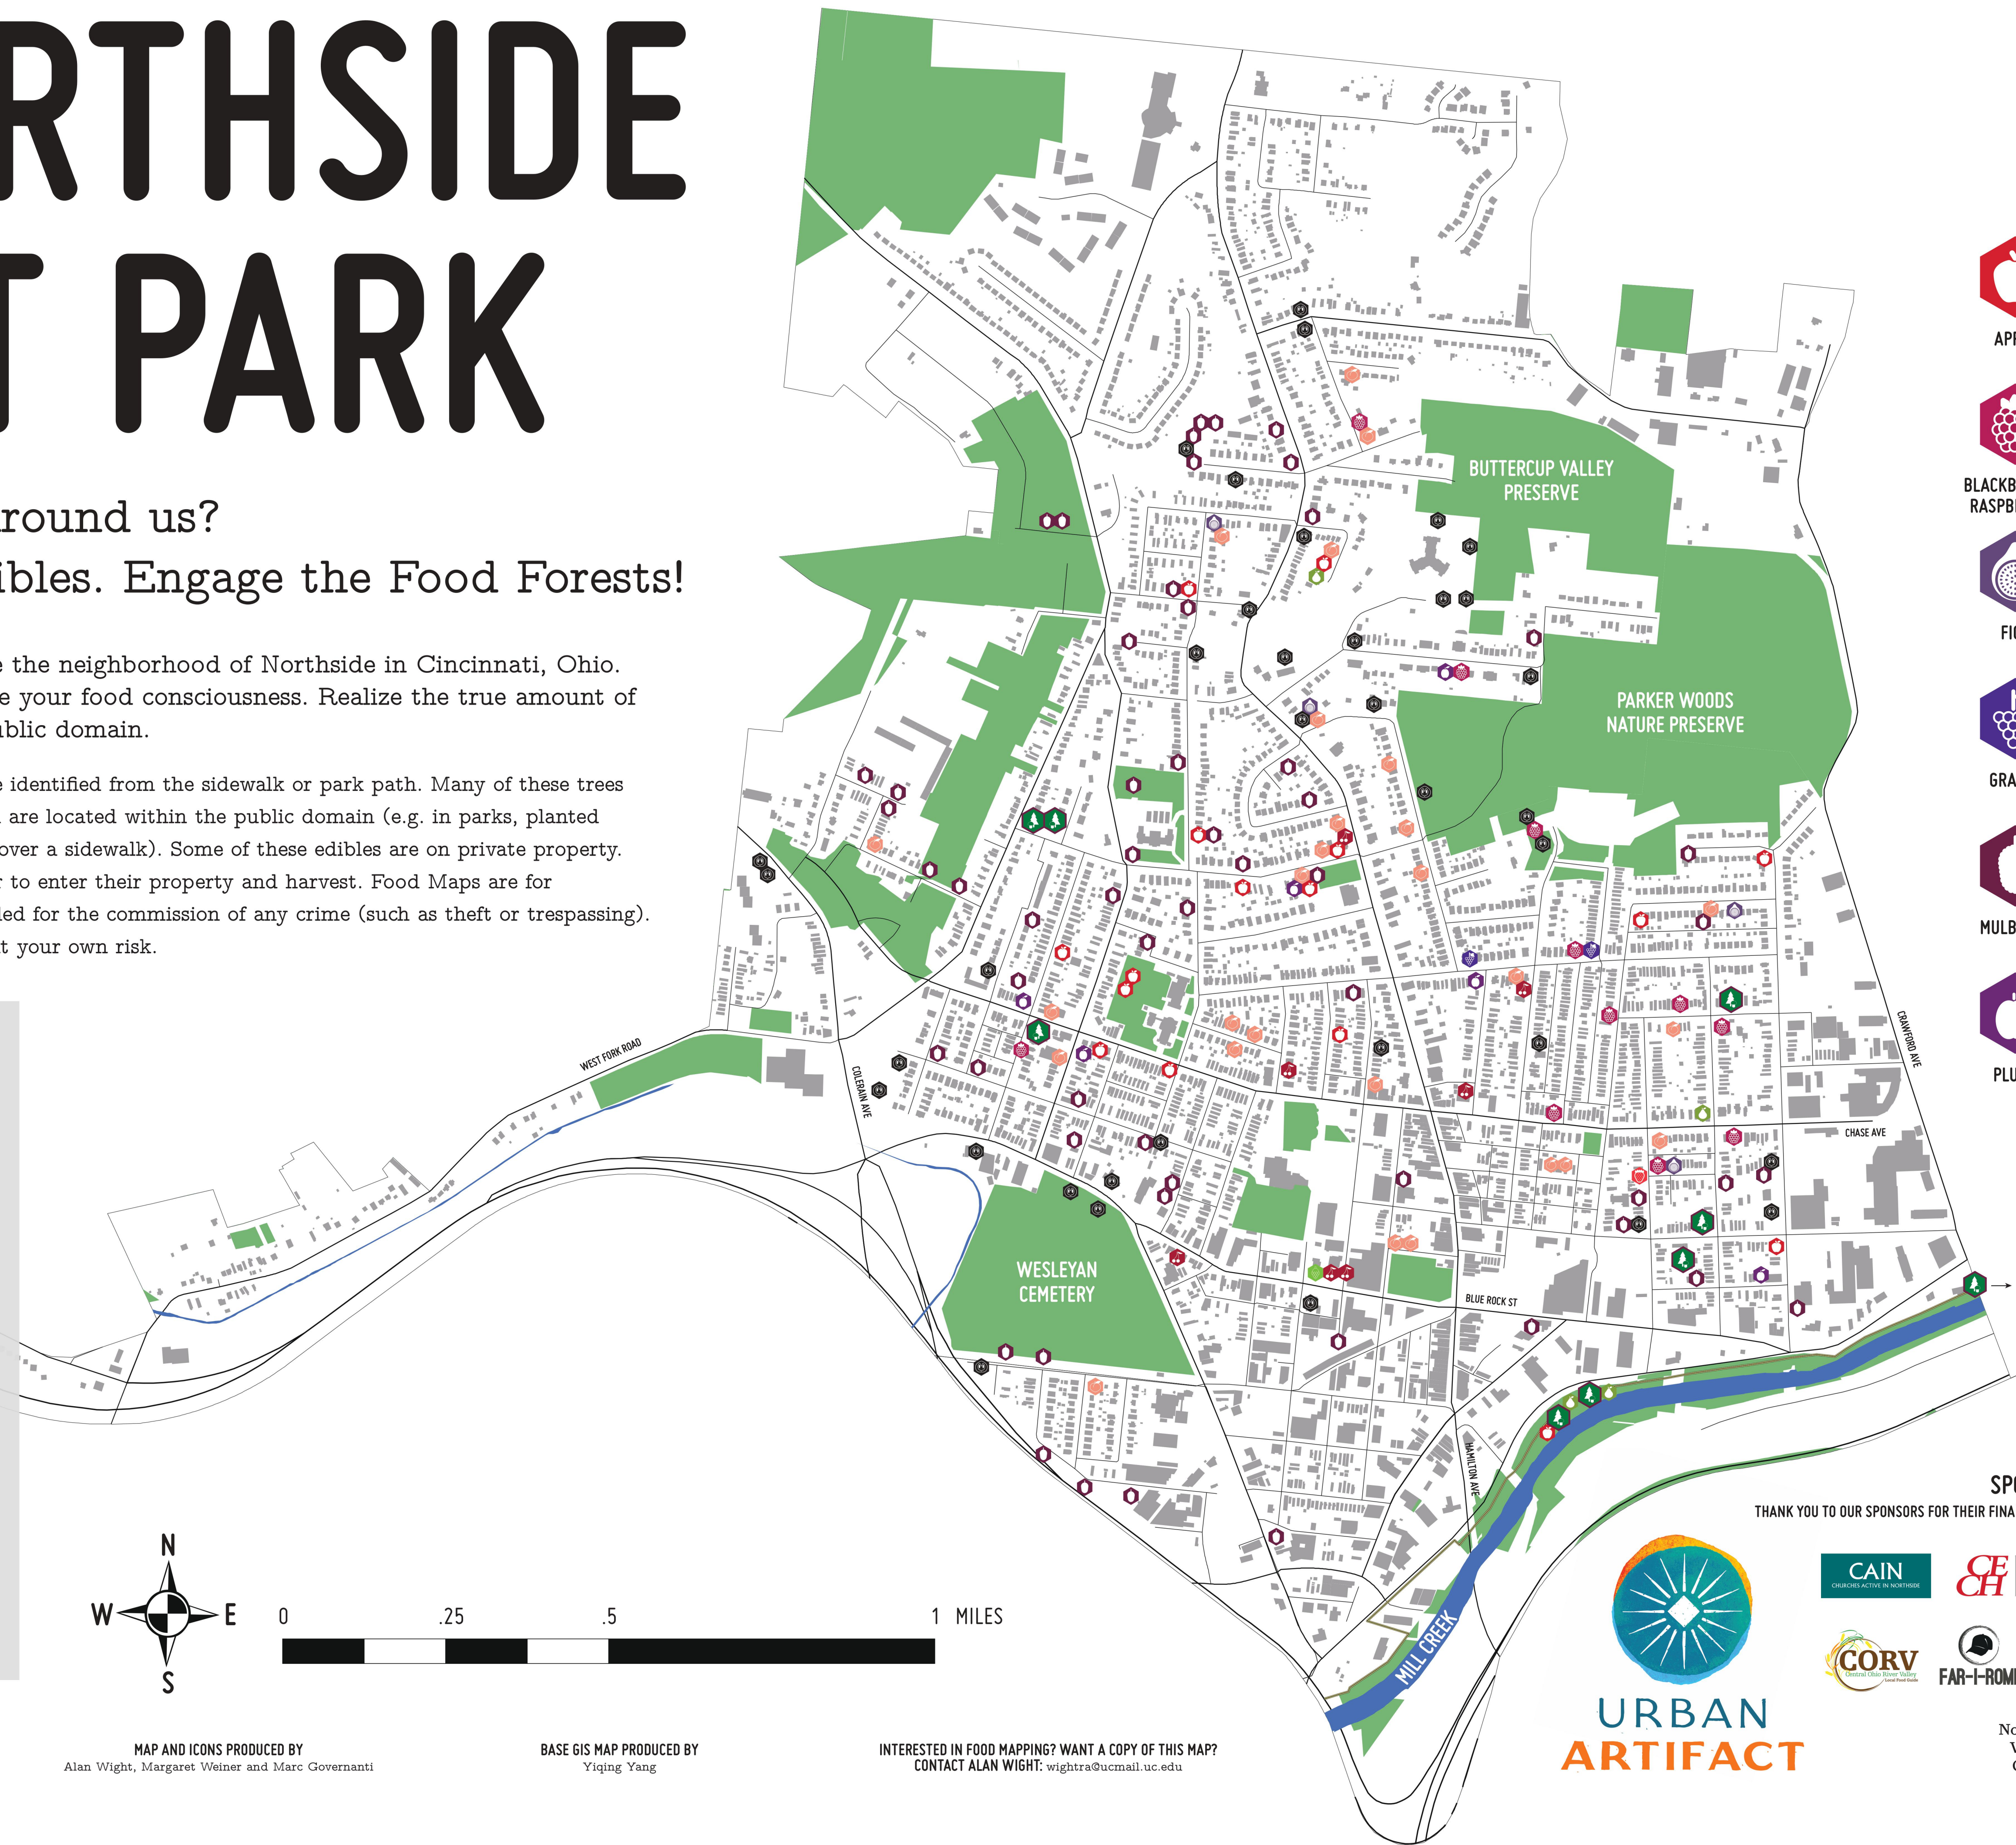

See the bounty all around us?
Identify the wild edibles. Engage the Food Forests!

This Food Map invites you to explore the neighborhood of Northside in Cincinnati, Ohio. Take a walk on the wild side and raise your food consciousness. Realize the true amount of harvestable food that grows in our public domain.

All wild edibles highlighted on this map were identified from the sidewalk or park path. Many of these trees and bushes are found on public property and are located within the public domain (e.g. in parks, planted between the sidewalk and street, or hanging over a sidewalk). Some of these edibles are on private property. YOU MUST have permission from the owner to enter their property and harvest. Food Maps are for educational purposes only and are not intended for the commission of any crime (such as theft or trespassing). Eating wild edible plants and fruits is done at your own risk.
